

⑤ 次の文を読んであとの問いに答えなさい。

1D Saving Energy

Second, we need to use less energy. In Japan, about 34% of the energy is used in offices, stores, schools and homes. So, we should start saving energy. How can we do this? We can turn off the lights when we leave a room. We can unplug things when we don't use them. We can turn down air conditioners and reduce waste. A lot of energy is needed to produce things and remove waste. By saving energy we can save our environment and ourselves.

We use fossil fuels to get (①), but they produce (②) (③) and (④) like smog and acid rain. We (⑤) (⑥) (⑦) them forever, either. To solve these problems, we need to (⑧) (⑨) like (⑩) power and (⑪) power. We also need to (⑫) (⑬). We need to (⑭) things and (⑮) waste, too. By saving energy we can save our (⑯) and ourselves.
